

May 2018

SPV/NURSERY A/2018

Dear Parent,

The long, lazy days of the summer vacation will soon be with us. We are sure you have planned various special treats for your child-especially during the cool early mornings and late evenings. However, the long hot "days" seems to stretch endlessly with little structured activity, which is both fun and instructional. We have put together a list of activities you could try out. We guarantee they will be "fun" as well as great confidence and "learning" boosters.

1. Encourage your child to "draw".
2. Practice colouring-learning to hold the crayon correctly, colouring within the given outline and to colour in the same direction.
3. Learning to handle scissors and cutting along straight lines (please use a pair of scissors with rounded edges)
4. Narrate stories to your child. Insist that the child repeats the story after listening to it.
5. Learning to wear their shoes independently.
6. Combing their hair.
7. Folding a bedsheet with help.
8. Folding their handkerchief.
9. Washing their handkerchief.
10. Serving- dry food items to guests/a glass of water in a deep tray.
11. Keeping shoes and belongings in their proper place.
12. Cleaning up after an activity.
13. Buttoning/Zippering independently.
14. Developing the habit of closing taps after use.
15. Sorting vegetables e.g. separating onions, potatoes etc. after your trip to vegetable market.
16. Helping in laying a table.
17. Simple craft activities using waste or junk material.
18. Encourage your child to develop good toilet habits
19. Visit the grandparents and let your child bond with them. Their love and emotional support is very important for your child. Click snaps with them.
20. Allow your child to play outdoors and make new friends.

PLEASE

1. Choose a time when your child is relaxed and you are free to provide help or guidance
2. Have crayons, scissors, paper, old magazines, glue etc. handy. Use only good quality crayons for work.
3. Stop before your child is bored or frustrated.
4. Give your child constant encouragement. Praise her/his efforts.

DON'T

1. Don't overstrain the child. One activity per day is more than enough.
2. Don't over help your child. Just guide when required and encourage him/her to think and work independently.
3. Don't allow your child to use ball point pens, pencils or felt pens at all. He/ She is supposed to work only with crayons.

Enjoy your holidays. We will be looking forward to sharing some of the fun and excitement you and your child have had this summer.

Summer vacations from 8th May 2018. School reopens on 2nd July 2018.

My first book of
colouring

Name: _____

Colour it neatly :-

Develop the circle into a
face :-

Paste cutouts of a circle in the
circles

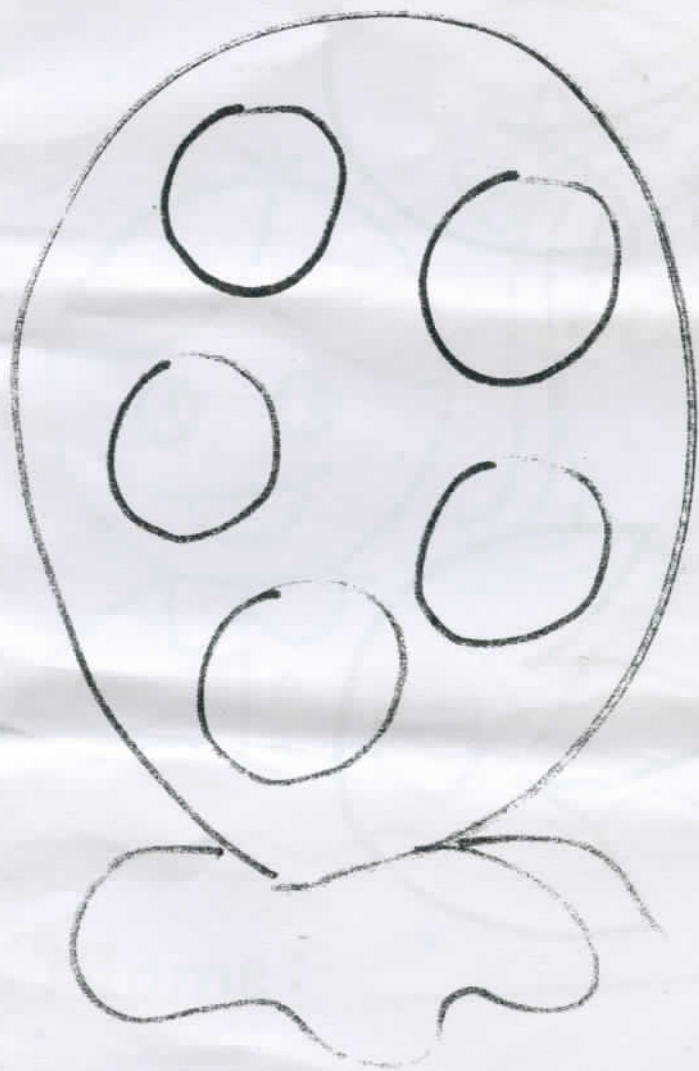

Trace:—

1. Paste cutouts of circles
in the circles.

Colour the tulip and trace on
the lines
